Integrating GIAHS with the UN Food Systems Summit Vision

The UN Secretary General's Statement of Action at UNFSS 2021. On food systems transformations...

... “This transformation is informed and supported by the ambition of all 17 SDGs based on the understanding that we must urgently move from incremental and siloed action **towards a systems approach**.

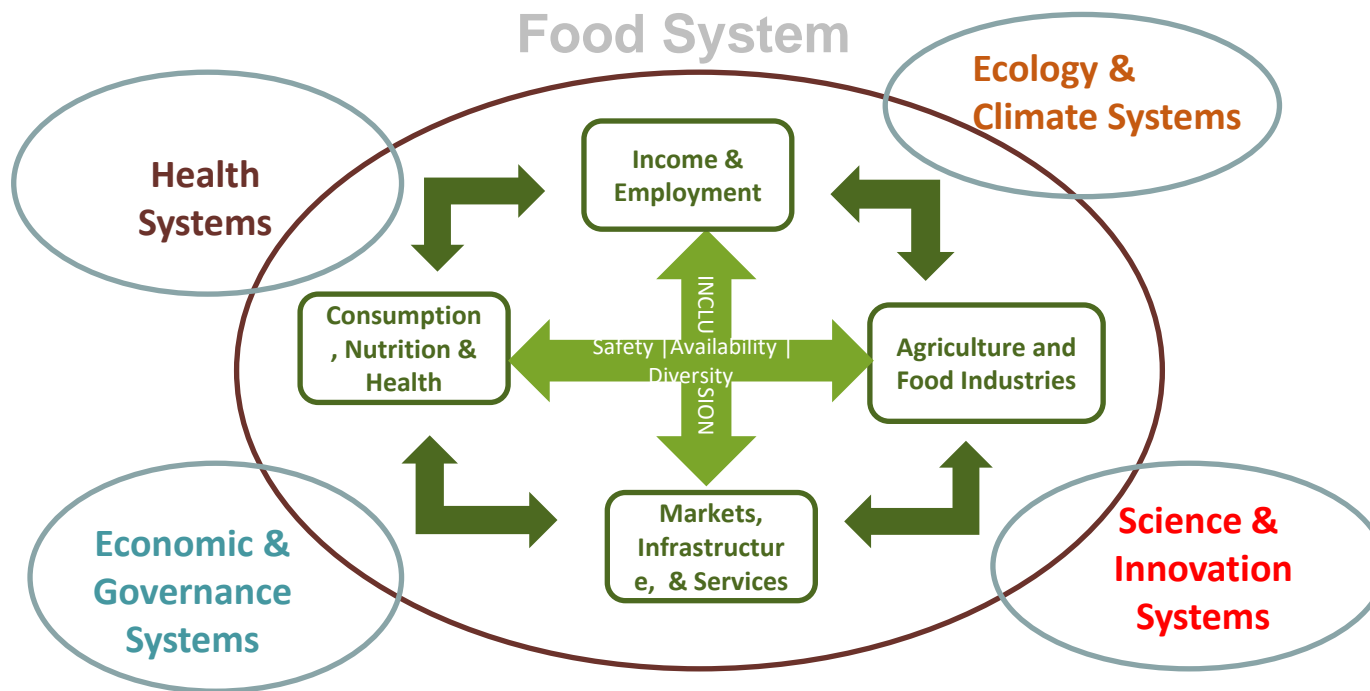

The food system does not thrive without **all sectors working as one**, towards common goals...

Transformative action demands the **engagement and close participation of the people who drive our food systems**, such as farmers, herders, food workers, ... the business community ...”

“Action must be driven at country-level by governments in their **local contexts**”

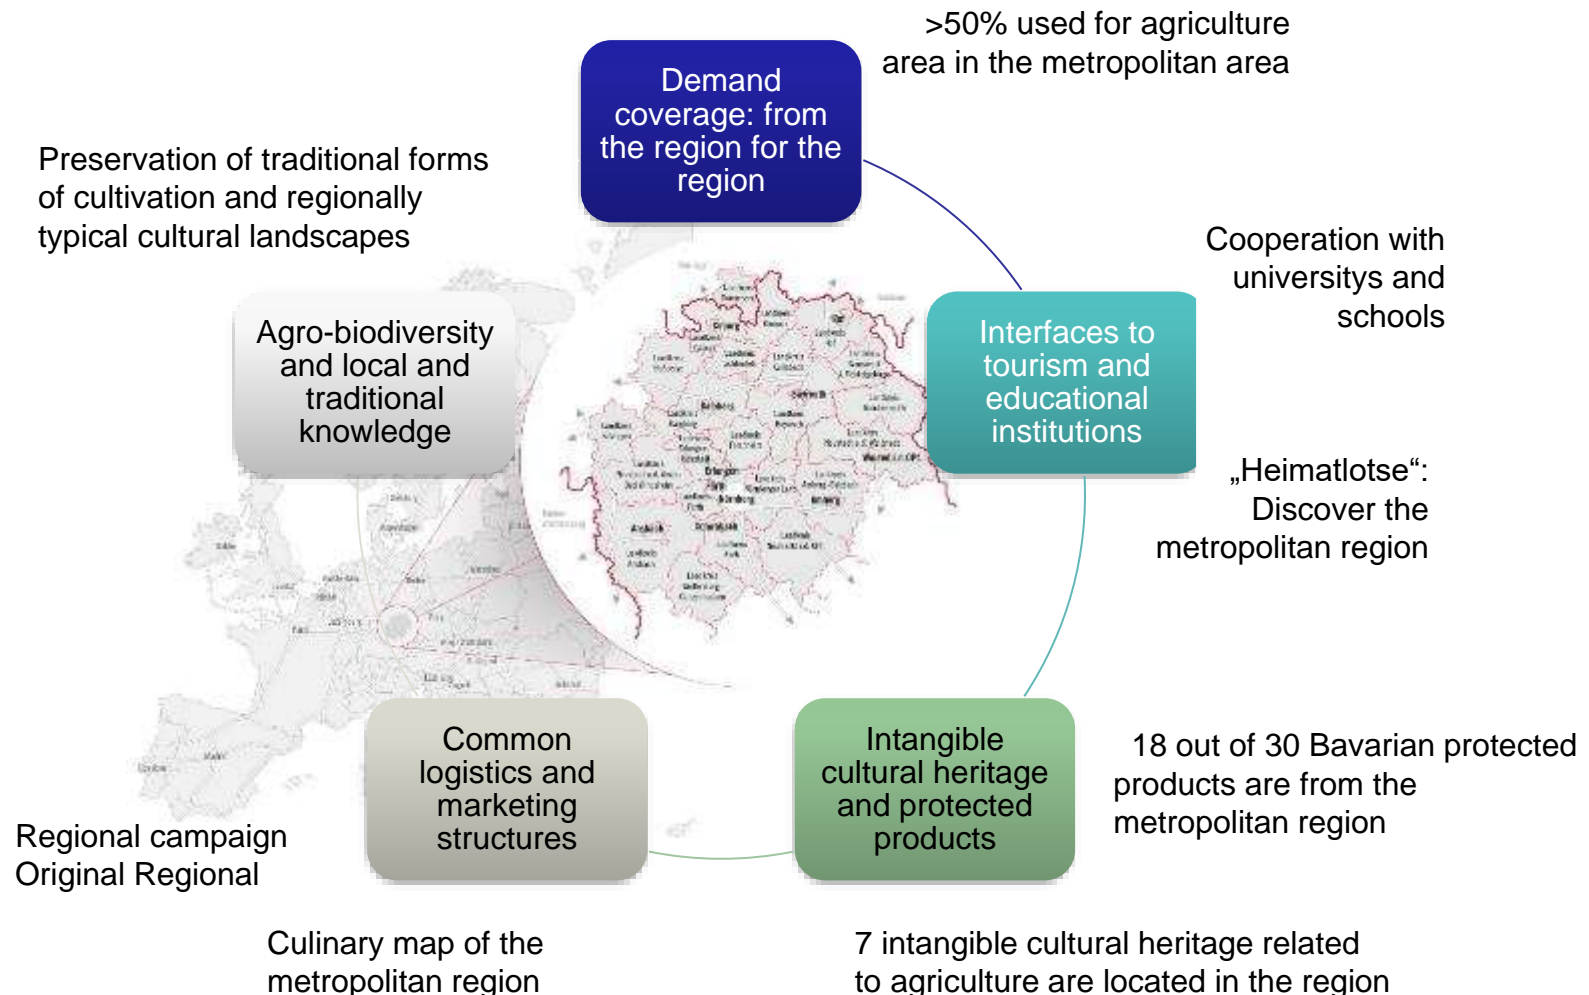

Food system concept and the SDGs frame action in Nuremberg Metropolitan Region Context

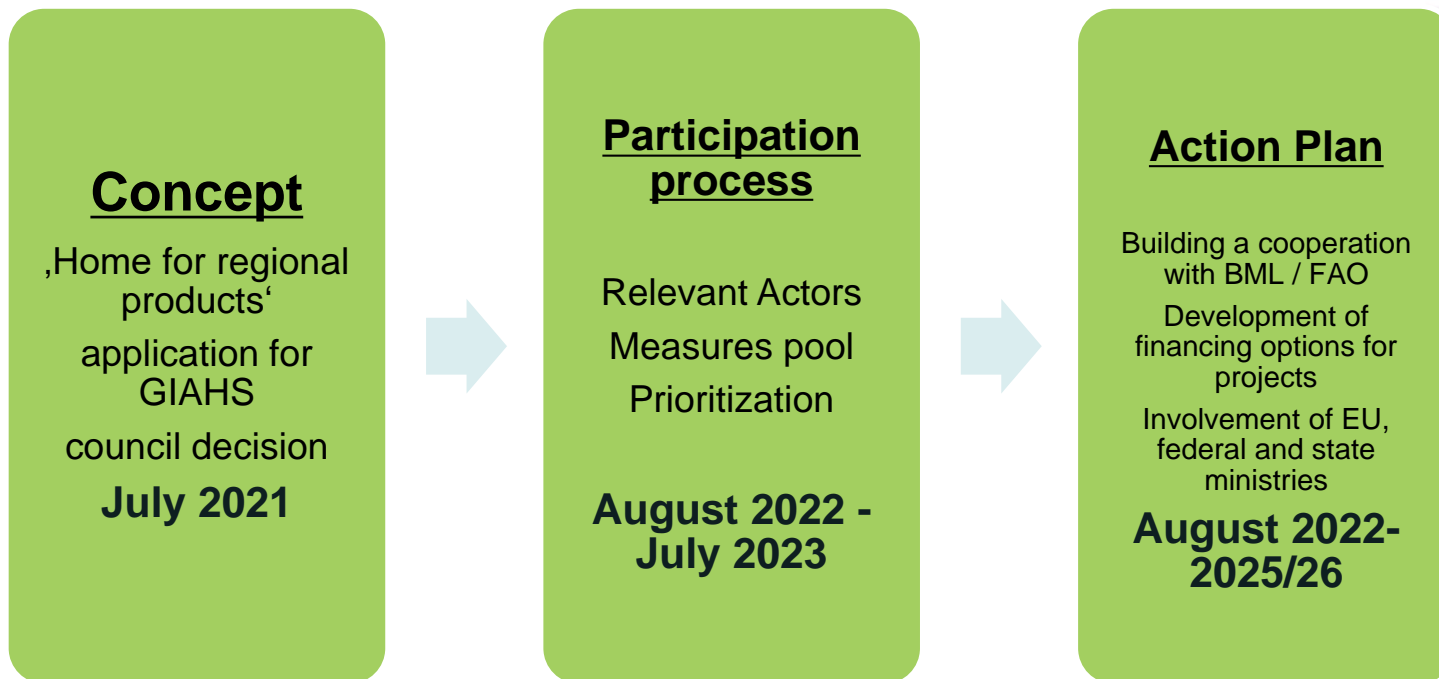

Joachim von Braun, Kaosar Afsana, Louise Fresco, Mohamed Hassan and Maximo Torero (2021) Food system concepts and definitions for science and political action. Nature Food. Sept 2021. <https://rdcu.be/cxPxJ>

Diversity rooted in tradition – Our connecting elements

Participatory process – the way to the GIAHS action plan

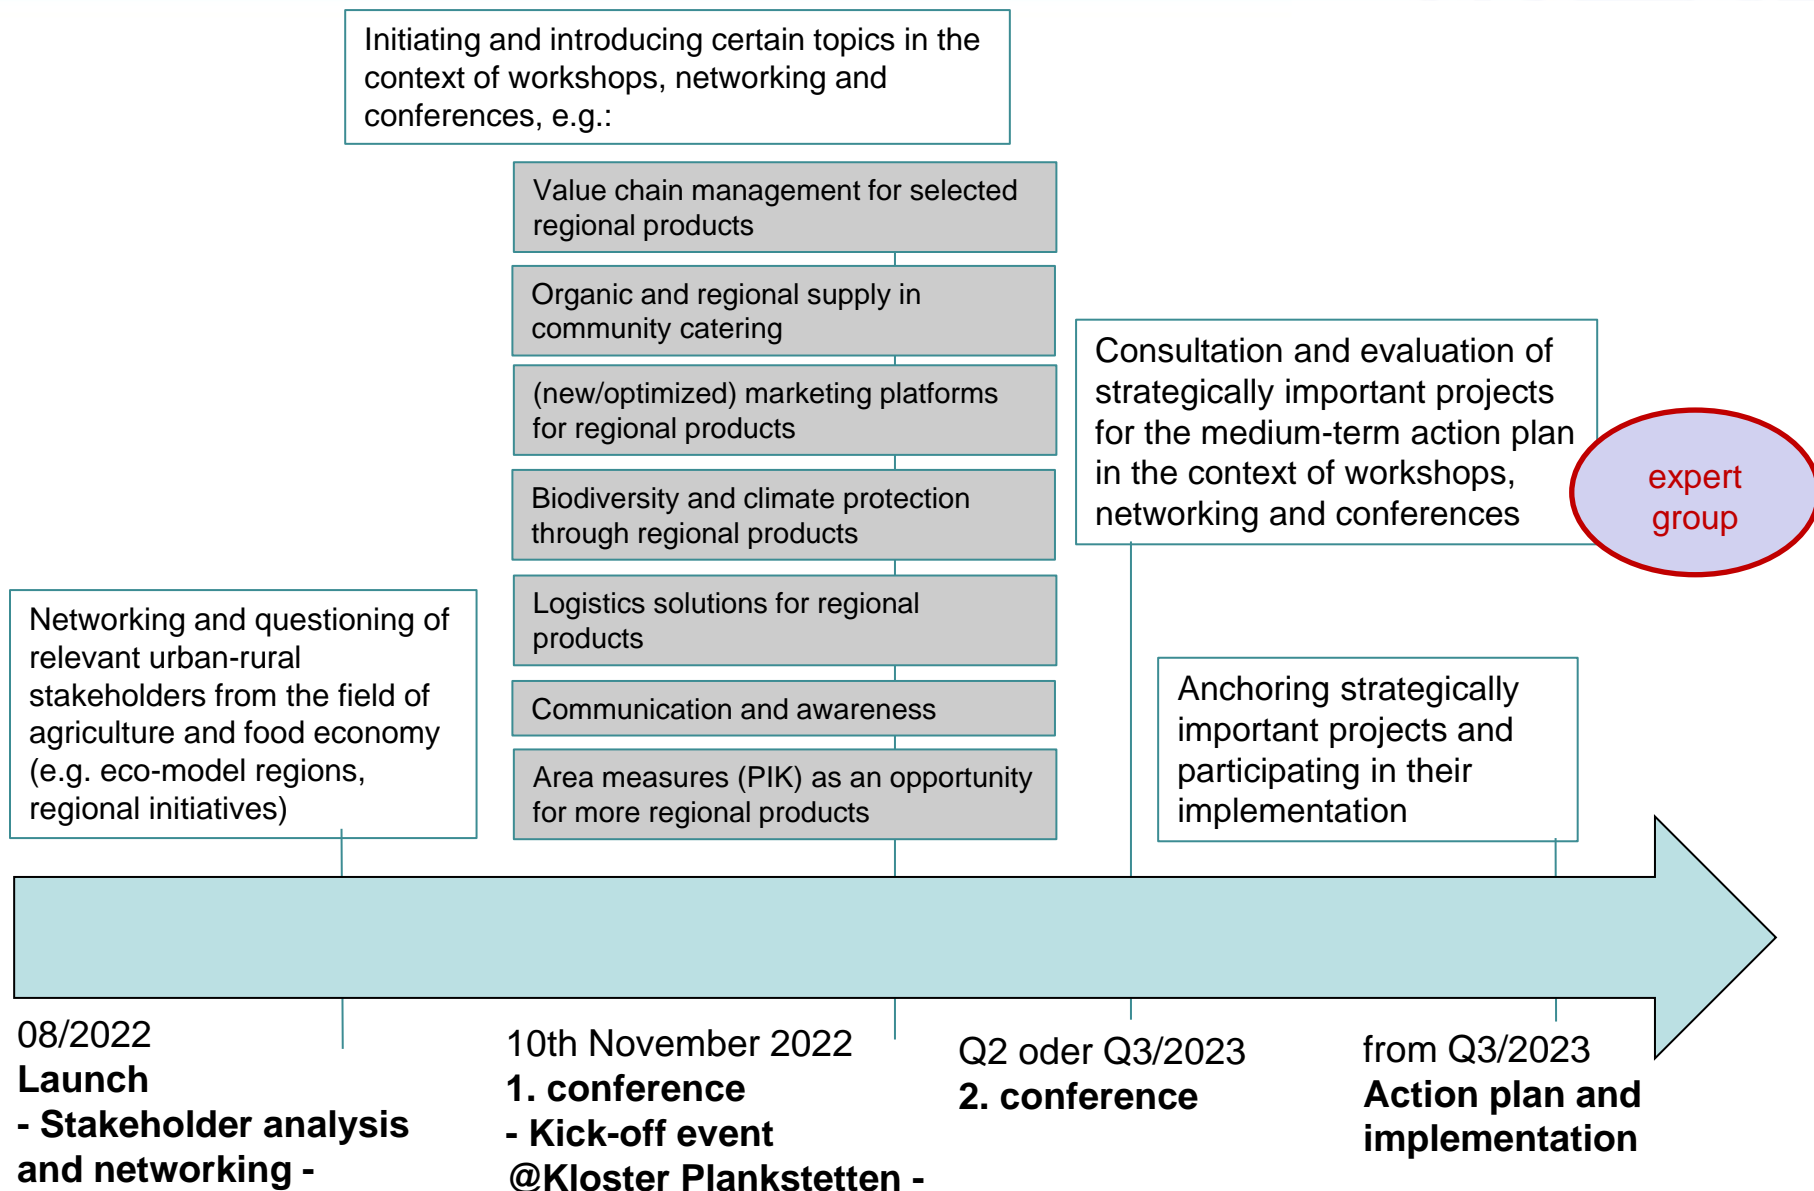

“Nuremberg Metropolitan Region as a Home for Regional Products”

Concept for a future-oriented regional agriculture and food economy

Primary goal: maintaining the high quality of life on the basis of a balanced urban-rural interlinking in the Metropolitan Region.

Participatory process – the way to the GIAHS action plan

” *The Nuremberg Metropolitan Region is not a playing field where few participate and many spectate, but rather a field with 3.5 million active participants and representatives.*
