INTRODUCTION TO *GLOBALLY IMPORTANT AGRICULTURAL HERITAGE SYSTEMS* PROGRAMME

Aurélie Fernandez - GIAHS Secretariat

What GIAHS stands for?

Remarkable land use systems and landscapes which are rich in globally significant biological diversity **evolving from the co-adaptation of a community with its environment** and its needs and aspirations for sustainable development

Context

GIAHS' goal is to identify, designate and promote the **dynamic conservation** of **remarkable agricultural systems** around the world

GIAHS operational framework

GIAHS operational framework

1. International:

Global recognition of the contribution of traditional agricultural communities in GIAHS sites

2. National:

Integration of the GIAHS approach in national policies + direct support to countries/local areas

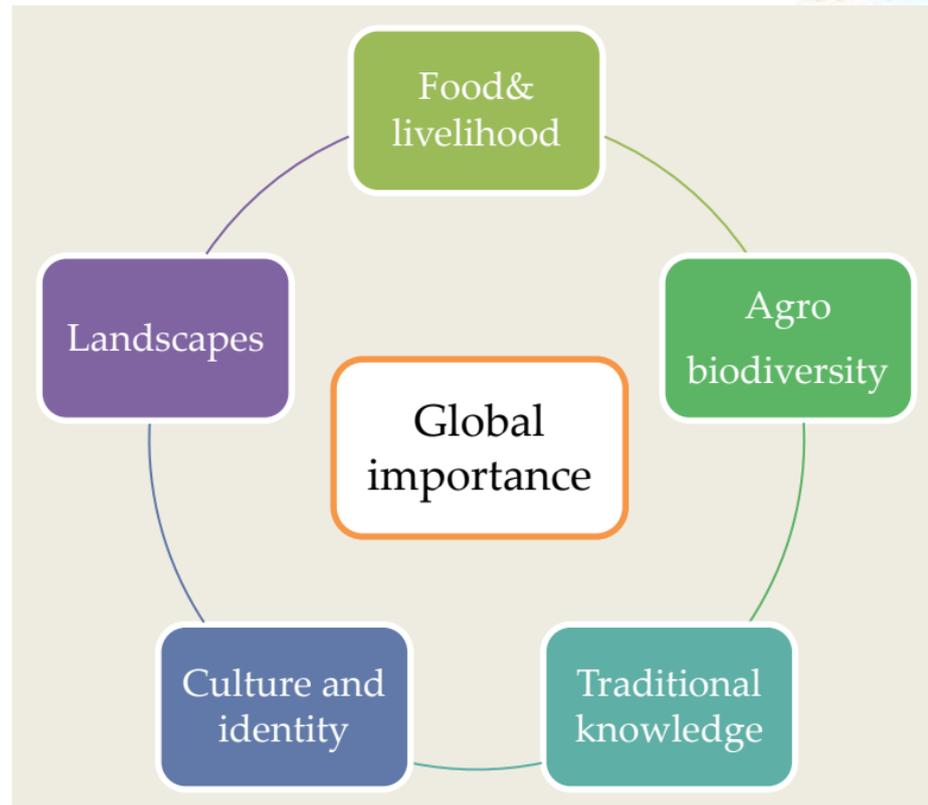

3. Local:

Sustainable development actions designed and implemented through participatory processes

GIAHS concept

1. Food and livelihood security
2. Agrobiodiversity
3. Local and traditional knowledge systems
4. Cultures, Value systems and Social organizations
5. Landscapes and seascapes features

Dynamic conservation

Blends conservation and development

- Avoid freezing system as museum
- Making the site and its community sustainable in our changing context: **developing without eroding culture, knowledge, biodiversity**, etc.
- Bottom-up approach

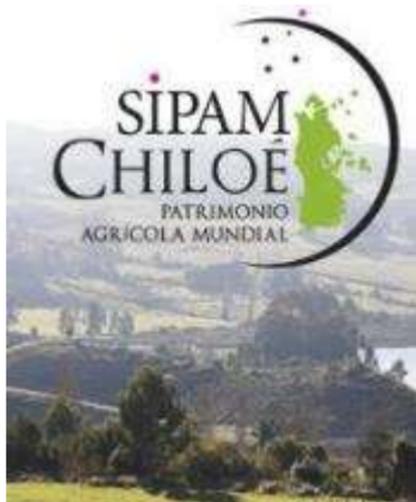

Example of actions implemented

- Development of laws adapted to the area
- Restoration of degraded areas
- Setting up of public-private partnerships
- Network development
- Technical & knowledge transfer
- Enhancement of products and labelling
- Development of agro- or gastro-tourism
- Cultural enhancement and communication
